

So are we.

That's why Honeywell is cranking up the volume on our new T7350 commercial programmable thermostat. The T7350 is a "contractor's thermostat"—specially designed to amplify revenues while it dials down labor costs, giving you the benefits of:

- Better top-line earnings. Modulating outputs, occupancy inputs, dehumidification and traditional features mean you can spec the T7350 in more building applications—generating more revenue for your business.
- Better bottom-line savings. Unprecedented quality, reliability, accuracy and power keep your end users happy while reducing service calls.
- Better ease-of-use. The T7350 is easy to select, install, program and maintain. You can even configure it with a Palm™ handheld device.
- Better value. The T7350 gives you a wide variety of features at a surprisingly low installed cost.

If you're serious about performance, the T7350 puts on a great show.

To see it live, use our distributor locator at customer.honeywell.com/buildings to find a T7350 distributor near you.

Better Than Ever.
