SUBJECT: Announcement of Zelix Actuators Now on VBN Ball Valves and Contractor PRO™ Double Points Promotion

BULLETIN: 09-0127

Announcement of Zelix™ Spring Return Actuators Now on VBN Ball Valves

Honeywell is pleased to announce that the new Zelix™ Spring Return actuators will now be available as standard VBN valves using spring return actuators (Options C or D). This will apply to all models, except those with weather enclosures, which will continue to offer the original style actuators.

New and Improved Features

The recently introduced Zelix Spring Return actuator line offers a compact solution that makes installation easier. The reduced energy consumption also makes installations more cost effective.

We have also made some significant improvements to the new series, including:

- A weight drop, going from 6 pounds to 3.5 pounds (**a 42% reduction**)!
- A size drop, with length going from 9.72 inches to 7 inches (**a 28% reduction**)!
- VA rating drop, from 13VA to 8VA (**a 38% reduction**)!

These are remarkable improvements that will appeal to installers for their ease of handling, ease of installation and ease of wiring due to the lower power requirements. For all of these reasons and more, consider Zelix with VBN Ball Valves!

Zelix offers a smaller package for installation versatility. The lower energy consumption reduces operating costs and the new Self Centering shaft adapter simplifies actuator replacement. All of these benefits are being added with no change in price of a valve and actuator assembly. **You do the math, and it simply shows that the Zelix with VBN Ball Valves assembly is a great solution to meet your needs!**

Get Double Contractor PRO™ Points with Every VBN Series Ball Valve Assembly Purchase!

Honeywell VBN series ball valves are in stock, and you'll get double Contractor PRO points on every purchase made between July 20 and September 30, 2009! This offer is valid on assembled units only.

VBN series ball valves come in a wide range of sizes and styles, so you'll find exactly what you need for your application — all while getting double Contractor PRO points!

So stock up on VBN valves and stock up on Contractor PRO points. Just place your order with your Honeywell distributor and your points will be credited automatically — no paperwork for you!

Product Availability

Orders shipped after July 20th, 2009 will be shipped with the new actuator. The function remains the same and the part numbers of the VBN assemblies remain the same.

Pricing

Pricing is done by part number and will remain unchanged until the next general pricing action.
