

## **WebStat™ Controller**

WebStat™ combines communicating thermostat advantages with simplicity and cost savings.

Best of all, WebStat keeps control simple by allowing Internet accessibility and flexibility for assigning user privileges.

## Building Automation With A New Spin — Savings

WebStat™ allows you to step up from standalone thermostat control to the automated T7350 communicating thermostat platform without incurring any excessive direct digital control (DDC) cost or complexity. You'll get standard automation features such as alarming, trending, scheduling and network accessibility, and you'll share reduced operational savings by enabling remote monitoring, alarming, floor plan visuals and thermostat assignment privileges for tenants, facility managers and contractors. And do it all simply with Internet access.
