**SUBJECT:** Obsolescence of the S684 and S984 Step Controllers

**BULLETIN:** 09-0142

## Obsolescence of the S684 and S984 Step Controllers

Honeywell periodically reviews products to verify that we are fulfilling customer requirements. Due to lack of demand and piece part shortages, we inform you that we will be obsoleting the S684 and S984 step controllers and associated replacement parts. These models have no direct replacement. A possible functional replacement may be the T775L with T775s expansion modules, or in some cases a W7100. Applications vary, so please check your application for specific requirements.

As of the release of this bulletin, there is limited stock on some of these items, both controllers and replacement parts. We encourage you to place orders, as stock remains available. We will fill orders on a first order, first fill basis. Please contact your Honeywell customer care representative for availability.

Obsolete Part Number	Possible Functional Replacement
S684F1035/U	T775L2007 with T775S2008 expansion modules (one or two T775Ss, as needed depending on number of relays needed). Also, a W7100 may work in some instances.
S684F1043/U	
S984D1049/U	
S984D1056/U	
S984D1064/U	
S984F1070/U	
S984F1088/U	
S984F1096/U	
S984J1042/U	
S984K1017/U	
128026RDEP/U	Associated S684 and S984 replacement parts also being obsoleted. No replacement.
