

Product Training Webcasts - Learn. Grow. Thrive.

Join Honeywell Product Managers and Technical Specialists for eLearning LIVE – a series of one hour online training webcasts that focus on product technical training sessions and new ways to improve and grow your business in 2010.

Honeywell Dehumidification Systems

Learn how Honeywell TrueDRY™ Dehumidification systems are a more effective and energy-efficient way to remove humidity. They can be installed “out of sight”, in the central heating and cooling systems – or in a standalone application for crawlspaces, attics, basements. And, with several sizes available you can meet the needs of your customer with one brand for every application.

April 6, 2010, 10:00 a.m. CST

Honeywell Hydronic Heating Overview

Join us for this session to learn more about our portfolio of electronic boiler controls, zone valves, air eliminators, expansion tanks, backflow preventors, oil primaries, aquastats, and more! With Honeywell’s full line of hydronic heating products, you can meet the needs of your customers with one brand for every application.

April 12, 2010, 10:00 a.m. CST

Contactors and Transformers

Honeywell has a full lineup of NEMA and Non-NEMA rated transformers along with a complete contactor offering to handle most heating and cooling related applications. Learn more about the portfolio and prepare your business for the upcoming cooling season with these high quality cooling components.

April 20, 2010 10:00 a.m. CST

Honeywell Light Commercial Thermostats

Learn how you can meet a variety of light commercial applications with Honeywell’s commercial thermostats, all the while ensuring you’re meeting local building codes and maximizing energy efficiency.

April 27, 2010, 10:00 a.m. CST

Honeywell Mixing Valves

Contracting businesses are not only trying to meet local and state plumbing code requirements, but they’re also looking for ways to increase profits. Honeywell Mixing Valves allow you to meet all of these needs - plus offer your customers increased water safety and efficiency. Start putting Honeywell Mixing Valves to work for your business today by joining us for this informative session.

May 4, 2010 10:00 a.m. CST

New Electronic Universal Primary

The NAOHSM trade show in late May will be the official launch of our new universal oil primary, but there is no need to wait! Join us for a pre-launch product overview and learn about the advanced diagnostics and simple setup that will have everyone talking.

New VisionPRO® model and VisionPRO® IAQ Updates

The industry’s favorite touchscreen thermostat family now packs even more punch. In this session learn about the additional features packed into VisionPRO IAQ® and the new addition to the VisionPRO® family – the TH8321U1097. The VisionPRO® IAQ now provides additional features such as Desert Humidification, Enhanced Heat Pump Control with Fossil Fuel Back-Up and Ventilation Lockouts. The New TH8321U1097 makes VisionPRO® even more robust - including a selectable output which gives you the ability to control a single IAQ product — humidification, dehumidification or ventilation – and more.

May 25, 2010 10:00 a.m. CST

Set Your Business Apart with Honeywell Marketing Support Programs

Let’s face it, it’s tough out there. And, with the daily pressures of running your business, how can you be sure you’re maximizing every opportunity to grow your business? From managing sales leads to leveraging programs that help you run your business more efficiently, Honeywell’s marketing support programs will help you maximize your time – and your profits.

June 1, 2010 10:00 a.m. CST

TrueZONE™ Technical Training

Using our more than 50 years experience and leadership in the zoning business combined with feedback from hundreds of customers like you, we’ve developed a new family of zoning panels. In this session, you’ll learn technical application training for both the TrueZONE™ wired – and wireless – panels.

June 8, 2010 10:00 a.m. CST

Choosing the Right RedLINK™ Products For Your Application

Honeywell’s suite of RedLINK products gives contractors more opportunity than ever to make more money for their business. Contractors can lower their labor costs and sell more per home by leveraging the power of RedLINK. In this session, you’ll learn which RedLINK products to choose for a variety of installation applications such as dual fuel, zoning and more.

June 15, 2010 10:00 a.m. CST

Cleaner Air, Happier Customers – Get both with Honeywell IAQ Solutions

Learn how to put Honeywell’s full suite of Indoor Air Quality products to work for you and your business. By educating homeowners on how their home’s indoor air quality can affect not only their family’s health and comfort, but also the house itself, you’ll have happier customers that call you when they need service or upgrades.

June 22, 2010 10:00 a.m. CST

New Prestige® Features

In this session, you’ll learn about Prestige’s newest features including customizable service reminders, All-In-One IAQ Control, Enhanced Geothermal Heat Pump Control with Fossil Fuel Back-Up, Expanded Ventilation Lockouts and Time-Of-Use Utility Programming.

June 29, 2010 10:00 a.m. CST
