

Put Our Product Experts To Work For You.

Let a trusted team of pros handle your field device specification and estimating.

Specification
Take-Off Service

Get more work — and more work done

Honeywell contractors and distributors can quickly and easily submit job specifications and engineering documents to our trained team of product experts who will review your project and develop a complete product schedule - at no cost. You will have an accurate quote, with the latest information and a complete list of products, helping you bid more jobs while lowering your total project costs. **More revenue, less work.**

Created For You

With Honeywell's Specification Take-Off Service, you can submit your building drawings, specifications or schedules to have a take-off performed by our field device product experts. The team will analyze your project and develop a completed schedule that includes base pricing and product specifications. The project schedule is provided to you at no cost, leaving you more time to get more work done.

Any Honeywell contractor or distributor in North America can use the Take-Off Service.

Easy To Use

The Honeywell Take-Off Service can create product schedules from:

- Product specifications
- Existing schedules
- Drawings
- Obsolete or competitive schedules

Whether your project is large and complex or as simple as a few line items: our goal is to provide you with the best possible solution for each job.

We Provide

Documents included with most take-offs:

- Product schedule
- Part numbers
- Submittal documents
- Honeywell base price
- Quote ID
- Ordering instructions

Products Supported

Commercial water and steam valves, pressure independent control valves, commercial control dampers, valve and damper actuators (electric and pneumatic), variable frequency drives.

The Take-off Service can also provide quotes for dampers and valves that are not standard Honeywell products, including high-performance butterfly valves, heavy duty dampers and airflow stations. Contact us for details.

To Get Started:

1. Go to <http://customer.honeywell.com/spectakeoff>.
2. Download Take-Off Service worksheet or use your own.
3. Complete the worksheet, make sure to include your desired turn-around-time.
4. Submit your information to takeoff.service@honeywell.com.
5. Our technical team will perform the Take-Off Service and send you a quote.

Please note, however, that the quality of the submitted information largely determines the turn-around time. We will work closely with you to ensure that we have enough information to move forward as quickly as possible.
